EXPLANATORY NOTES:

1. **Designated Residence - ‘*Transit Station*’**

In order to ensure that all travelers to the Republic are screened, they will be required to travel directly from the airport in an approved transport to the designated transit station. The travelers may be required to stay up to 14 days for the purposes of being screened or tested for the Coronavirus (COVID-19). If cleared, such person will be required to go to their residence or accommodation upon approval of the Secretary for Health and Medical Services.

2. **Designated Residence - ‘*Observation Station*’.**

Those who show any signs or symptoms of the Coronavirus (COVID-19) to the reasonable satisfaction of a health practitioner, and/or tested positive may be required to be moved to the ‘*Observation Station*’. This includes any person found on the island to be showing signs or symptoms of Coronavirus (COVID-19). Based on the advice of the health practitioners, any person from this station may be released if the ultimate result is negative.

3. **Designated Residence – ‘*Treatment Station*’**

Those who require treatment and hospitalisation will be moved to the acute block of the RON Hospital. This is to ensure that all health and medical care is provided to those who need such medical attention. They will remain there as long as necessary and will only be discharged on the advice of the health practitioners.
