In all cases where a lease is granted to non-natives or companies or associations not containing a significant amount of the indigenous equity, the lease may contain a clause requiring the lessee to achieve a specific level of indigenous equity within a time specified and/or to provide a certain level of management training and/or technical training of indigenous persons. The level of equity that may be required will depend upon a number of factors including the type of business, the amount of capital required, whether foreign investment is involved, etc.
