Introduction

Vision and Mission Statements

The vision statement of the Judiciary of Vanuatu is not radically different to similar statements of vision from other jurisdictions, insisting on fundamental notions like judicial independence, public trust and confidence and effectiveness and efficiency.

However, the vision statement is peculiarly extroverted in seeking to encompass the legal profession into a vision of mutually beneficial standard of expectations of quality, ethical, accessible and cost-effective legal service.

The mission statement is a statement of intent on how the Judiciary of Vanuatu will deliver on its vision and its overarching Constitutional mandate – the administration of justice according to law.

Vision Statement

“A JUDICIARY THAT IS INDEPENDENT, EFFECTIVE, EFFICIENT AND WORTHY OF PUBLIC TRUST AND CONFIDENCE, AND A LEGAL PROFESSION THAT PROVIDES QUALITY, ETHICAL, ACCESSIBLE AND COST-EFFECTIVE LEGAL SERVICE TO OUR PEOPLE AND IS WILLING AND ABLE TO ANSWER TO PUBLIC SERVICE.”

Mission Statement

“TO DISPENSE JUSTICE SPEEDILY, FAIRLY, INDEPENDENTLY AND WITH IMPROVED QUALITY OF EXTERNAL INPUTS. TO IMPROVE ACCESS TO JUSTICE BY EFFECTIVE, EFFICIENT AND CONTINUOUS IMPROVEMENT OF JUDICIAL INSTITUTIONS. TO BE A JUDICIARY THAT CONDUCTS ITS BUSINESS WITH DIGNITY, INTEGRITY, ACCOUNTABILITY AND TRANSPARENCY.”

Statement from Chief Justice

REPUBLIC OF VANUATU

CHIEF JUSTICE'S CHAMBERS

INTRODUCTORY REMARKS FROM CHIEF JUSTICE

The 2019 Annual Report presented in the same format as the previous year, covering major Court performance indicators accepted regionally and internationally.

The Report provides information on the courts, their achievements, challenges and performances in the year under review. The focus is on the management of the case load by the courts. The Report includes a deeper analysis of the nature of cases registered, those completed, and importantly, those pending disposal by the courts.

The objectives of Court Administration are equity, effectiveness and efficiency. The review analyses the ways in and the extent to which the courts in their endeavor to perform their roles in the delivery of service of justice to the people of the country despite the huge difficulties/ challenges encountered by the courts in respect to shortage of human resources, lack of court spaces, equipment / facilities, required processes in place and including budget constraints.

The court administration performances are evaluated by quantitative output indicators based on the registrations (filings), finalizations, pending case load and time taken between filing and finalization. Prior to 2009, the Court's Annual Reviews has focused solely on those performances indicators. This year's review continues the practice adopted in the past years Annual Report Reviews of Reporting on an expanded range of quantitative indicators. Those indicators indicate that the courts have been successful in achieving results despite the challenges referred to earlier.

There are also other qualitative indicators that assist in gaining an appreciation of the court's performances. This year's review again includes qualitative output indicators of access to Justice, including in the accessibility of the court and the responsiveness of the courts to the needs of users where ever they are in the country.

Further, despite the challenges which are really critical to the delivery of justice by the courts, the material contribution of the courts to the community is still unevaluated. This material contribution is reflected to the volume of decisions made. In 2020, the Court of

Appeal delivered 67 outcomes of cases, some of which were substantive judgments and were sent for publication on www.paclii.org and placed on the courts website.

The publication of these judgments provide valuable information to land, civil, criminal, commercial, administrative and constitutional jurisprudence. They also enable transparency and accountability in the courts' decision making despite the difficulties still encountered by the court administration and the Judicial Services.

Throughout the year, the Judges, registrars of the courts and courts support staff have administered the courts and the rule of law with a high degree of independence, impartiality, equity, effectiveness and efficiency.

The Honorable Justice Vincent Lunabek
Chief Justice

Administrative Management

Political highlights

The Constitutional Case No. 20/1517 which was filed by the Leader of the Parliamentary opposition and the entire members of opposition against the Speaker of Parliament for their 2 days suspension from Parliament, alleging the suspension was in breach of their constitutional right. The members of opposition group boycott the parliament alleging some members of parliament do not adhere to covid-19 restrictions therefore putting their health at risk. The Supreme Court dismiss their application and on appeal, the Court of Appeal allow their appeal concluding the 2 days suspension of the entire opposition members tantamount to government breaching Articles, 1, 2 and 4 of the constitution. The suspension has the effect of undermining the democracy of the Republic of Vanuatu. Further, the individual constitutional rights of each of the members of the Opposition we simultaneously breached.

Land cases

One Supreme Court Judges focused on land cases and completed 29 Land appeal cases.

Asset and Infrastructure

Under the key result area, focus was on maintenance of the court's assets. The Judiciary is in need of court facilities build purposely for the court. The Magistrate Court building was called off by the government as priority focus is shifted to the Supreme Court Hall of Justice.

(I) Supreme Court Hall of Justice

In 2019, the Vanuatu government shows its commitment towards the Supreme Court hall of Justice by allocating it financial contributions totaling 60% of the total cost of the building.

The Government further issued a COM paper detailing the concept of the Hall of Justice in November 2019. The building should contain 7 Court rooms, 9 Judges Chambers, 2 holding cells with funding supported by the Government of Australia and Government of New Zealand. In 22 September 2020 the government officially launched the ground breaking during which the Hon. Prime Minister reiterate that the Steering Committee should not wait but should start working toward the construction immediately, there was nothing else to wait for as we have all the materials available in Vanuatu. The Government is anticipated that construction work be commenced in early 2021.

The current temporary accommodation that the Court is using is becoming fast inadequate. The extension added is used by the court administration and making space for temporary court chambers. Extension of offices and recruitment of Human resource is becoming an issue as space is very limited to extension.

The Courtrooms and the retirement room rented at the Dumbred Hall complex is the bare minimum and the Port Vila Municipal embarked on a development project next to the court rooms which reduce access to the courtrooms and more and more the building has been degrading affecting the court functionality.

The Magistrate Court building was declared unsafe for use by the Public Works engineers in 2017. As a result Magistrate Court was relocated to the Equity Investment Building and a room at the Mall Building opposite the VNPF was turned into a court room for 6 Magistrates to use. The total annual rental of temporary court room and office is VT8, 600,000.

(II) Outer Island Court Buildings

The maintenance of Court building in the Islands is also a major issue as most buildings are deteriorating as there were limited funds.

Luganville, Santo Island

The Court Administration continues to rent the property in Luganville, to house the court center there. Demand on space has lessened somewhat when the resident judge there returned to Port Vila. However, the Magistrates court has strengthened its presence there with 2 magistrate resident in Luganville, and there workload warrant an additional Magistrate in Luganville in 2021.

The property is a two floor building that houses the Supreme Court, the Magistrates Court and the Island Court. One Assistant Sheriff is also accommodated in the building.

Isangel, Tanna Island

Tanna court was renovated in 2020 with funding support of VT 5,000,000 was allocated by the *Stretem Rod Blong Justice Project*. The refurbishment includes a ram for wheel chair to the building and a bloc of new toilets for both male and female. The courts will be operating in the new building in early parts of 2021.

Morua, Tongoa Island

The Court house at Morua on Tongoa Island, accommodates the court registry, an Island Court Clerk office, a judicial officer's office and a courtroom. The design is the same as the court house at Isangel on Tanna Island.

The "*Rod Stretem Blong Justis*" project funded solar power units that have been installed in the courts' outer island offices including Morua, Tongoa.

The roof of the building was partly damaged in 2015 TC pam, however in 2017 the damaged corrugated iron roof were replaced. The full building needs renovation to its structure and office spaces.

Saratamata, Ambae Island

The Ambae Island Court is operating on a small room at the head quarter of the Penama Provincial government on an annual rental fee of VT 360,000. It was temporarily closed due to the effect of Manaro Volcano. The Clerk has moved back to Saratamata in 2020 and the office has now resumed its normal business.

Sola, Bank Group of Islands

While the Court office at Sola, Banks islands enjoys a reliable and constant source of power from the Solar power unit that was installed there early 2012, however, in 2017 the unit was down most of the time and needed major overhaul to bring it back to operational. Now the Court is relying on a solar power that was installed later in 2017. The need for structural repair and renovation to the building is the same as the other court centers. Internal and public toilet facilities need to be provided in the court office building.

There is need for repair and maintenance of building and furniture of the court in this location as well.

Loltong, Pentecost Island

The Pentecost Island Court is accommodated in a building owned originally by the Penama Provincial government at Loltong. The Island Court Clerk station at Loltong was transferred to Epi Island Court in March of 2020 leaving Pentecost Island court Vacant in 2020. The process of recruiting a replacement is underway and will be done in early part of 2021

The Court administration keeps a fiberglass boat at Loltong for transportation so the court can access other coastal parts of the island of Pentecost. The boat was donated by the French government, through the French Embassy in Port Vila.

Lakatoro, Malekula Island

The court office at Lakatoro, Malekula is in a better condition than many other court offices around the country. There is constant centrally provided power. However, facilities available for the public court user is non-existent. There is need to build public toilet facilities and upgrade the staff facilities.

Telecommunication to and from this court office has now improved with internet connection, through the help of the E-government project.

Graig-cove, Ambrym Island

The court office on Ambrym was built concurrently with the one on Epi Island. It is a simple design of two office spaces, one for the judicial officer and the other for the clerk

or support staff. Then the rest of the building is an open-style courtroom not similar to the ones at Morua, Isangel, and Sola.

This office benefitted from the funding assistance from the ***Stretem Rod Blong Jastis*** project to acquire a solar panel and accessories to generate power for the office.

The condition of the two building has deteriorate to a stage where it needs immediate attention, in particularly the Ambrym Court building which has been recently declared unsafe for used. Court administration will have to find an alternative space for the Ambrym Island Court to operate in 2021.

Technology

Restrictions imposed by Covid-19 has promoted the use of Telephone and Video conferencing connection remotely. Through the support provided by the office of the Government Chief Information Officer [OGCIO], Courts were able to deliver justice remotely despite restriction imposed by Covid-19.

Court of appeal of Vanuatu conducted virtual hearing successfully from May 2020. Two overseas judges that composed the Court of Appeal connected in each session without difficulty.

Internet access has been and is a continuous challenge in the outer Provinces and a setback for the Case Management System which is centralized in Port Vila. Thus, staff in Port Vila are tasked to update by phone.

The Vanuatu parliament provided a budgetary proviso for acquiring telephone and video conferencing facilities to be connected to all main court centers across Vanuatu, all tender process have been completed in 2020 and installation of these equipment will take place in 2021.

Vanuatu Judiciary continue to use Webinar, Zoom and the True Conference as types of communication technology to tap in to regional and international meetings.

The desktop computers of the Judiciary across the country needs to be replaced since many of them are more than 5 years old.

Library

The Library exists to support and provide resources to meet the informational needs of Judicial Officers and staff of the Courts. The main collection is located at the Supreme Court in Port Vila and a smaller collection located in the Luganville, Santo.

The print collection of the library incorporating primary and secondary resources of the collection comprises of 2,600 + items.

An NPP was submitted in 2019 for the amount of VT2, 500,000 and was approved by the Budget Committee. The fund was appropriated for the purchase of specific titles for the Library. A committee was appointed specifically to select titles to be purchased by this NPP.

Donations: With the assistance of Justice White the Library has received 14 cartons of assorted textbooks from the Federal Court of Australia. These textbooks are important additions to the current collection.

Library collection use: The Library continues to receive clients daily. From daily observations, collection usage by users was newspapers, law textbooks, law reports. Borrowing records show that a total of 16 titles actually signed out by Judges/Staff. However, open access to the collection allows for users to walk into the library anytime to borrow materials, which at times may not be recorded when the Library staff is not available.

Daily observations show that there would be an average of 5 users using the library each day.

Services and facilities: Services and facilities provided by the Library includes photocopy, laminating, binding, coffee/tea making facilities, lounge set & conference table for users, Library research PC & Wi-Fi access in the Library and certain areas of the Court building.

The Library is also occasionally used to conduct mediation meetings by the Court Master.

Renovations and improvements: Towards the end of the year, renovations were done in the Library. This included removing the torn linoleum flooring and replacing it with ceramic tiles, replacing the full ceiling and replacing the fluorescent tubes with LED Light bulbs.

PacLII: Library staff is responsible for collecting and disseminating court decisions for publication. Decisions are sent to the Pacific Legal Institute commonly known as PacLII: <http://www.pacii.org/> Decisions are also published on the courts official website: courts.gov.vu or judiciary.gov.vu. Judgements published are from the:

- Court of Appeal; civil and criminal appeal decisions
- Supreme Court; civil and criminal decisions
- Magistrate Court; civil and criminal decisions
- Island Court; land and chiefly title decisions

In 2020, 37 batches of judgments, containing 330 decisions were sent to PacLII for publication. These decisions were also published on the Court website.

Archives

The Supreme Court Archives holds court records material from 2000 – to date. Shipping containers have been utilized to hold court archive records. Older court records have been moved to the National Archives from preservation and storage.

Vehicles

The court has a fleet of 15 vehicles and in 2020, there was 2 replacement of vehicle being for Judges, the replacement of Chief Justice official car and a pack up vehicle to the Chief Justice car. There was also a new vehicle for Santo Court specifically to assist Judges when touring Santo. The Santo administration vehicle was also replaced.

Boats and accessories

There is one operating boat at Lolong, Pentecost Island. This was donated by the French Government. There is currently a 15hp outboard engine on the boat which is inadequate considering that the boat is about 7 meters long.

An aluminum boat which is located at Sola in the Banks group of islands has been relocated to the court office on Epi Island. A new engine and safety equipment and accessories will need to be purchased to make the boat sea worthy.

Epi Island is underlined by the need for a bigger and heavier boat for the Banks islands where the islands are scattered far and wide, and the high swells and rough seas is not uncommon in this part of the country.

A 500cc motorbike is located at the Court office on Ambrym.

About the Courts

Court of Appeal

The Court of Appeal is the highest court of the land. It is composed of at least 2 or more Judges of the Supreme Court sitting together. 2020 was a challenging year for the Court of Appeal due to COVID – 19 pandemic restrictions preventing overseas judges from coming to the country to sit in COA sitting physically. However the restrictions encourage the use of remote connection of judges virtually and that works successfully for the sittings COA sittings in April, July and November session.

The Chief Justice of the Supreme Court is the President of the Court of Appeal and all the Judges of the Supreme Court are called upon by the Chief Justice to compose the Court of Appeal. Overseas judges who composed Court of Appeal of Vanuatu in 2020 included:

Its decision in such cases is final.

The Supreme Court consists of the Chief Justice and Justices appointed on local terms and conditions. One Justice is seconded by the New Zealand District Court to the Supreme Court of Vanuatu for a period of 2 years. Criminal outcomes

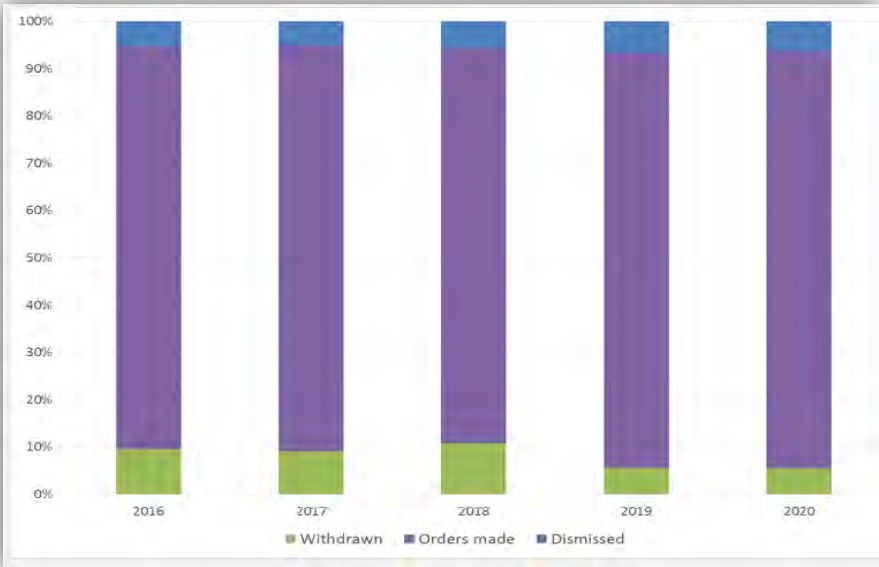

Figure 15: Outcomes brought before the Supreme Court

Figure 16: Outcomes brought before the Magistrate Court

Factors, events or trends influencing court results.

The Vanuatu Courts enjoy a good degree of independence from the executive branch of the Government. However, external and internal factors contributed to the results of the court operations and functions in 2020.

Challenges

- I. The service of summonses for criminal cases lodged in the Magistrates Court is also a source of impact on the Magistrates Court in managing cases.
- II. Court circuits to islands other than Efate and Santo have been limited to Provincial headquarters.
- III. Warrant issued by the Supreme Court and Magistrate Court for defendants in criminal cases were never executed due to inability of budget or resources by the Vanuatu Police. Some of these pending warrants were over 10 years old.
- IV. Covid- 19 bring in a lot of challenges including preventing of recruitment of 2 Supreme Court judges.

Human resources

- I. The process of appointment of 2 Judges of Supreme Court was being halt by the worsening situation of pandemic Covid-19 leaving the Supreme Court to function with 5 judges and 2 masters.
- II. The retirement of Shirley George, the Assistant Registrar of the Supreme Court in Santo Wilma Manmeline, the Filing Clerk of the Supreme Court allow for recruitment of new staff.
- III. The removal of Magistrate Stephen Kalo from the bench in Santo places more pressure to the Senior Magistracy in Santo which justify the transfer of Magistrate Setariki to Santo.

Expansion of Service to Outer Islands

The insufficiency of the annual budget leads to minimum level of operations in rural centres while the two main towns attract the most voluminous work and therefore the bigger share of the budget expenditure. The budget constraints limit the courts' ability to be innovative in their operations and functioning across Vanuatu.

Interaction with other agencies

- I. The Judiciary has enjoyed a healthy working and professional relationship with the Ministry of Justice & Social Welfare throughout the year. It has supported the Ministry of Justice Sector Strategy and is in continuous dialogue with the Ministry on carrying the Strategy forward.
- II. Further, the Judiciary has been the beneficiary of assistance offered through grant funding by *Stretem Rod Blong Jastis* under the Law and Justice Partnership under the auspice of the Ministry of Justice.

- III. The courts welcome the professional relationship it has with the Vanuatu Correctional Services Department, which comprises of the Probation office. The provision of support in the form of required reports have improved the quality of sentences in criminal cases.
- IV. The Vanuatu Police Force has been a major partner in the execution of court warrants around the country.
- V. The court's interaction with the non-government organizations has been very limited except for the continued cooperation with the UNICEF, and the Vanuatu Women's Crises Centre [VWC] who represents victims of Domestic Violence in their application to the Magistrates Court.
- VI. The Pacific Legal Information Institute [PacLII] who is accommodated by the University of the South Pacific Emalus campus in Port Vila, has been a strong partner in assisting the Supreme Court and the Court of Appeal judgments to be published online in a timely manner.

International interactions

- I. Vanuatu benefited hugely from its association with the *Pacific Judicial Development Program* [PJDP], a regional cooperation in Judicial Developments, funded by NZ Aid and managed by the Federal Court of Australia which has been revitalized under the name *Pacific Judicial Strengthening Initiative* [PJSI]. Ten different activities on capacity building for court staff and judicial officers were successfully accomplished under this fund in 2020.
- II. Vanuatu like other Asia and Pacific countries, participates in the Chief Justices of Asia and the Pacific Conferences, serving as a member in the *Law Association for Asia and the Pacific* (LAWASIA). Unfortunately, due to the global outbreak of COVID-19 and the consequential restrictions regarding large scale events and international travel, the 2020 conference to take place in Hong Kong was canceled.
- III. Commonwealth – Vanuatu like all other Pacific courts is a member to the '*Commonwealth Judges & Magistrates Association*'. Despite COVID-19, Vanuatu maintains strong ties through membership fees, thus benefits from Rule of Law Webinars and other Commonwealth Statements and judicial journal updates, all online.
- IV. Vanuatu benefits in 2020 from daily updates from *The National Judicial College*, Reno, Nevada, US; on available online seminars and online courses. Some judicial officers listened to the online free seminars.
- V. Vanuatu also has strong ties with the *Papua New Guinea Centre of Judicial Excellence* (PngCJE) and benefits from quarterly Newsletter and PngCJE Updates this year.
- VI. JPPF – Vanuatu has also benefited from the *Judicial Pacific Participation Fund*, a NZ Aid that financially support the participation of judicial officers to judicial professional and educational development. This year, unfortunately due to COVID-19, no judicial officers attended to overseas professional development, however fortunately the Fund has post-COVID-19 plans for 2021 and Vanuatu would surely benefit.

Implementation of the Management Improvement Plan

The Supreme Court is mandated by the *Judicial Services and Courts Act* to prepare a management improvement plan for each year (s.50) purposely for improving the efficiency and effectiveness of the operations of the Judicial Service and the Vanuatu Courts, and to report against it annually (s.51(f)) in the Annual Report.

The Management Improvement Plan 2020 has set out five priority action areas. These five priority action areas were to:

1. Maintain and strengthen judicial independence;
2. Refine case management systems and processes to endure fair and timely disposition of cases;
3. Develop professional judicial and court service delivery;
4. Ensure justice is accessible for all; and
5. Develop physical infrastructure/ assets to support effective service delivery.

The Plan highlights the intention to:

- Appoint sufficient judicial and staff resources to enable effective and adequate court services to be provided
- To provide ongoing professional development of judicial and court officers so that the court employees have greater capacity to fulfil their functions
- Develop a grass-roots approach for the courts' engagement with the community by undertaking consultation with court circuits.

Some highlights in 2020

- Development in the Island Court, saw newly appointed justices; for Ambrym/ Paama Island Court: 19 altogether; 5/19 are females and for Ambae/ Maewo Island Court: 20 altogether; 5/20 are females. The newly appointed guarantee improvement in case management, seeing Paama for the first time after the justices' appointments had a first island court sitting – an achievement.
- Supreme Court Judge's workshop on 'Analysing damages' was a success, ending with Judge Viran Trief compiling a "Methodology – Assessment of Damages for Personal Injuries", send to the Chief Justice's office.
- Certificate of Justice (COJ) Program for Malekula, saw 7 lay justices enrolled and 6 completed the program. Grades are yet to be released early 2021. Last year (2018 – 2019) COJ was piloted in Efate and in end of 2020, there has been big improvement in Efate Island Court on completion of cases; clerk commented 'there is confidence seen on the bench, decisions of minor cases are handed down straight, lesser adjournments seen for discussion purposes before delivery of decisions'.
- Island Court Clerk Training – for the first time, clerks were taught to draw up working plans (4th quarter), focusing on SMART indicators for implementation

purposes. Through M&E by Senior Administrator – some plans were successfully implemented and others roll-over to 2021.

- 1st Admin Retreat held this year, participants including corporate staff, and Admin heads. There were appreciation and constructive critics for all work achieved and plans were drawn for input into the 2021 Judicial Management Improvement Plan.
- 1st Secretarial Training – the Secretaries have for sometimes requesting that their capacity development be captured and included in the Annual Calendar of Events, and this year seen for the first time, a three day workshop. Prioritising re-emphasis on Values of the Institution (Judiciary) and norm reminders on internal administrative procedures.

Planned Activities summed in Graphs

There was a total of 45 activities planned for 2020 (details of activities are prepared in a separate document – The JMIP annual report, can be viewed upon request) and 69% were successfully implemented – graphed in Figure17.

Figure 17: Overall Activities – Judicial Management Improvement Plan (JMIP) - 2020 (45 activities in total) shown in Percentage; 69% achieved, 11% in progress, 13% delayed, 7% not applicable this period.

Judicial Development & Training

A committee was established by the Chief Justice in 2016 purposely to identify and discuss Training needs, approve Training design for appropriate programs, and identify possible facilitators. It also addresses the issues of identifying relevant officers' attendance to capacity building opportunities and staff queries of in-service continuous education.

In 2020, Training/ capacity building specifically, has 24 planned activities (details is prepared in a separate document – The Training Annual report and can be viewed upon request), some activities captured in the Improvement plan above, some in the *Annual Calendar of Events* and others were conducted by our external partners requesting the court participation for example, the PJSI and the Ministry of Justice. Out of the 24 activities, we managed to implement 21 and 3 are still ongoing – mostly ongoing follow up with PJSI. Shown percentage in Figure 18.

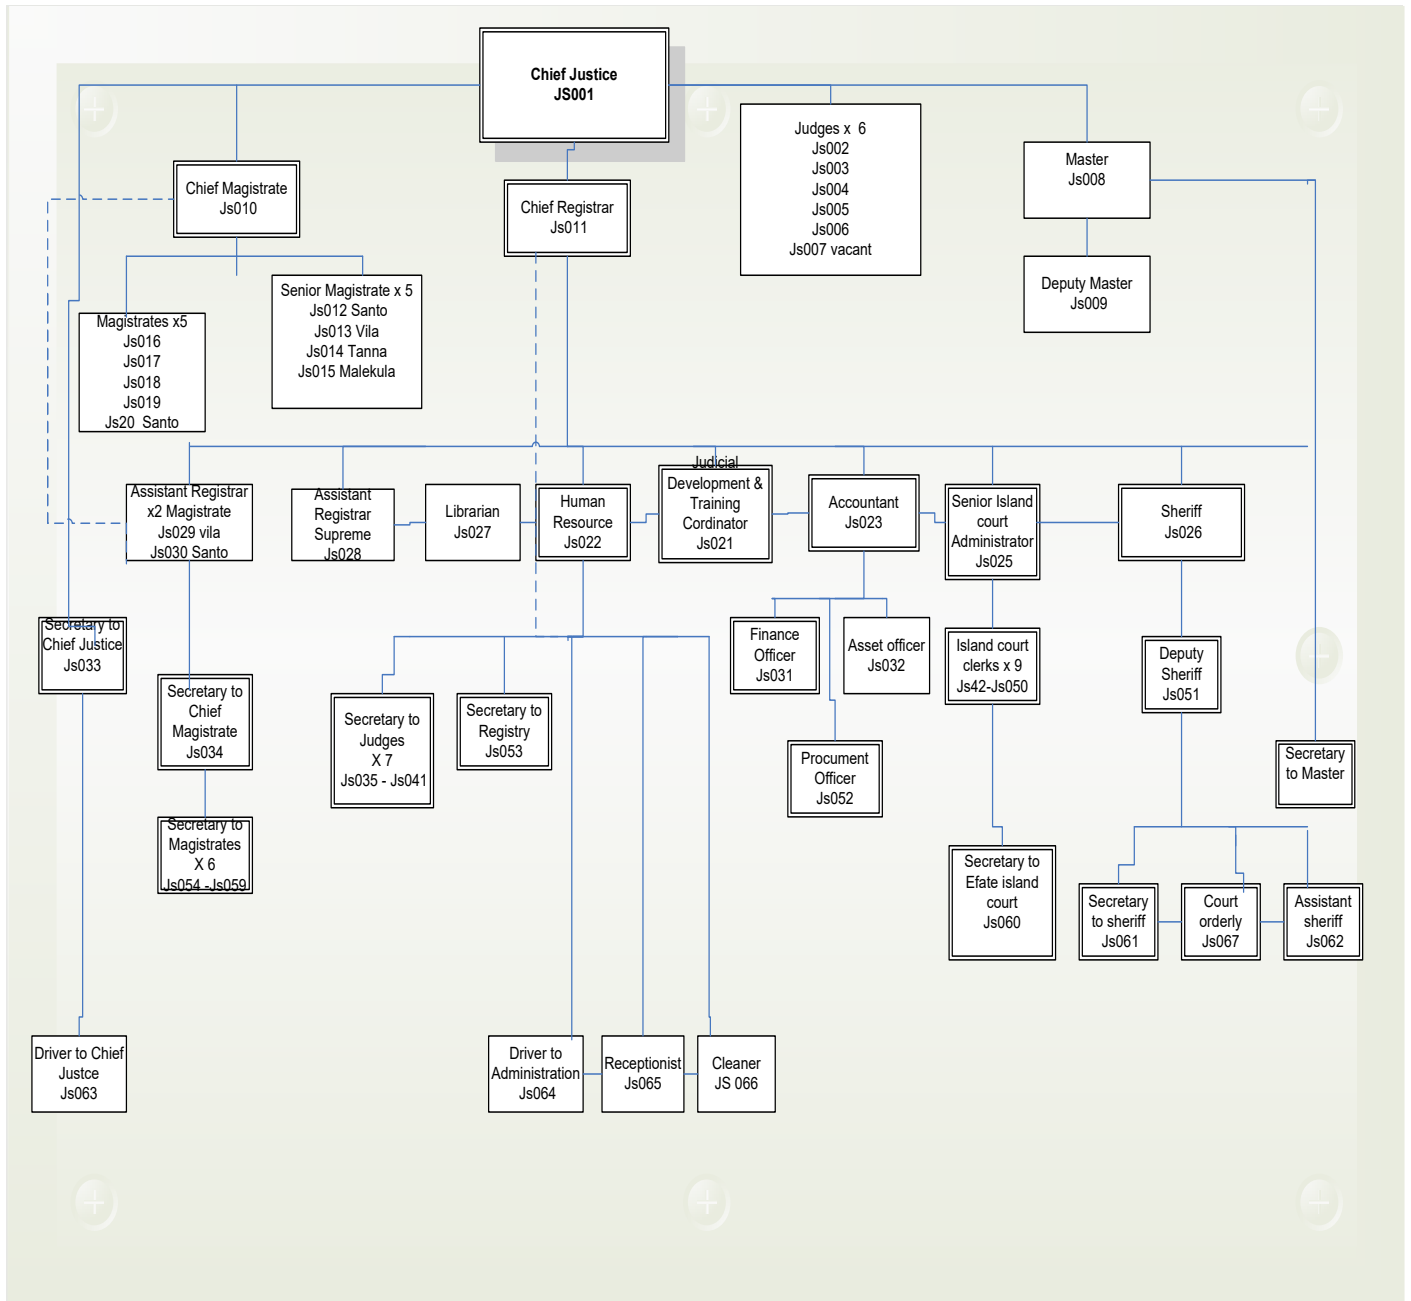

Figure 18: Overall Training Activities, 24 altogether, 21 successfully carried out and 3 is on-going to 2021.

Budget Overview

The Judiciary budget has one Program – The Administration of Justice.

The program is uplifted from the Constitutional mandate contained in Article 4 (Constitution) which provides that:

“The administration of justice is vested in the Judiciary, who are subject only to the constitution and the law. The function of the judiciary is to resolve proceeding according to law. If there is no rule of law applicable to a matter before it, a court shall determine the matter according to substantial justice and wherever possible in conformity with custom.”

The main objectives of the Judiciary are encapsulated in its mission statement:

“To dispense justice speedily, fairly, independently and with improved quality of external inputs; to improve access to justice by effective, efficient and continuous improvement of judicial institutions; to be a judiciary that conducts its business with dignity, integrity, accountability and transparency”.

The judiciary budget is built to reflect the hierarchy of courts as well as the corporate structure and the registry structure of the court administration.

The judiciary budget is to provide adequate budget for the functioning of the courts, as well as the administrative mechanism which support it. There are two sides of the same coin – the judicial functions of the courts, and the support provided by the court administration. All of these are for the objective to “administer justice.”

There are different activities and their objectives under the main program:

CIAA: Corporate services

This activity is for the organization and management of the corporate structure and function to provide the institutional support to the courts in their dispensation of justice to all peoples.

This activity not only ensures operational support, but is also concerned with strategic planning and execution of those plans. It is internally focused, but also with an appreciation of national and international linkages.

Current units in the corporate structure include:

1. Finance and Accounts
2. Human Resource Management
3. Training and Development
4. Enforcement
5. Island Court Administration
6. Library and Archives services

CIAB: Court of Appeal

The Court of Appeal of Vanuatu is the final court of the land. The sole objective of this activity is to bring finality to all cases registered in its registry in a timely manner.

The way that the Court of Appeal of Vanuatu is programmed is to ensure that Notices of Appeals filled in the Court of Appeal registry must not delay. The Court of Appeal of Vanuatu meets 4 times a year. The total of 4 sitting in a year helps Vanuatu’s position at a standard where there are no backlogs of cases. It takes less than 6 month for an

appeal to be dealt with, from the time of its registration to when a final decision is made. The Judicial Service Commission in its statutory order No.1 of 2019 supplement the order made on 20 March 2008 concerning the Court of Appeal Sitting Allowances. (1) Overseas or Visiting or retired Judges sitting in the Court of Appeal of Vanuatu shall be entitle to 81,000 Vatu per day sitting allowance while on Court of Appeal Duties. The Local Judges payment number of days also increases to 14 days. The increased was called professional fees which include preparation, reading & search, sitting, writing judgements and giving out judgments.

CIAC: Supreme Courts

The objective of this activity is to deal with all cases registered in the Supreme Court registries justly and effectively.

The Supreme Court of Vanuatu is a superior court of records with unlimited jurisdiction. The Supreme Court hears civil cases, criminal cases, constitutional cases, judicial review type cases which are important in Public Law Matters in its original jurisdiction, including in its supervisory role. It has also an inherent power to apply the law to all the cases registered in its registry.

The Supreme Court has also other statutory functions such as elections disputes and others.

The Supreme Court has also an appellate jurisdiction to hear all appeals from the Masters of the Supreme Court, all appeals from the Magistrates Courts and all pending Land appeal cases from the Island Courts.

There are currently 5 Judges and 2 Masters of the Supreme Court of Vanuatu. Amongst these Judges, there is one international Judge and a Master that are serving under contracts.

CIAD: Magistrate Courts

The objective of this activity is to list, hear and deliver summary judgment in cases registered in its registries throughout the country.

Permanent registries are established at Port Vila, Isangel, Lakatoro and Luganville.

In civil matters, the Magistrate court has jurisdiction to hear and determine in a summary way civil proceedings as provided for by the Magistrates court (Civil Jurisdiction) Act [Cap.130] and any other relevant legislations.

In criminal matters, subject to the provisions of any other Act or Law, the Magistrates court has jurisdiction to hear and determine in a summary way criminal proceedings for an offence for which the maximum punishment does not exceed imprisonment for 2 years.

The objective of this activity is to hear and give out decision on all cases heard in the Magistrates court around the country. Also to expand the operations of the Magistrates court to all parts of the country.

CIAE: Island Courts

The objective of this activity is to be an effective dispute resolution that response to the needs of the island communities which they serve. As part of the objective of this activity a Supervising Magistrate has been appointed for supervision of island courts operation and enforce decisions of the Island Courts.

Island Courts are located within the island community they serve and enable the local "justices" to participate in a dispute resolution system sanctioned by the law. The island

court is the first level of law courts, and it offers the perfect opportunity for the formal system to dovetail into the intricacies of the customary law and its application.

CIAF: Land Courts

The objective of this activity is to deal with customary land matter pending in the Island Court jurisdiction.

So far in 2019 a budget was allocated to deal with pending Land Cases.

CIAG: Enforcement

The main objective of this activities is to ensure execution of warrant issued by the courts. The other objective is to ensure effective, efficient and timely service of court documents.

Here are some important achievements and challenges faced by the Sheriff during 2020 fiscal year.

1. Service of summons.

Process originating from the Supreme Court, the Magistrate Court and the Island Court is lodged with the Sheriff for service by relevant Offices. It is important to ensure that it is served as soon as practicable.

Before service of notice, information is completed by the Officer accepting the process;

- The name and address of party/parties to be served.

All process issued from Courts must be served personally unless otherwise directed by the Court. These motions have hearing dates and the notice is required to be served personally not less than 2 days before date of hearing.

After servicing the court documents, the Sheriff must provide a proof of service for court documents to the Officer in charge.

Where a Sheriff is unable to serve a document he/she shall make out a notice of non-service in duplicate and return the summons together with the notices of non-service to the officer in charge.

Service of document may not be serve on Saturday, Sunday and public holidays or the day before or after Christmas day.

2. Arrest Warrant

The Sheriff is required to arrest persons and convey them to goal or present them before Judge. Positive identification of a person to be arrested is essential, and if the Sheriff is in any doubt, instructions should be sought from the Registrar's office and to obtain a clear instruction. And it's preferable that the Sheriff and his Deputy or the Police attend on arrest matters.

3. Execution

Enforcement Warrants issued out the Supreme Court, Magistrate Court and Island Court are directed to the Sheriff for execution.

Priority on Supreme Court execution is determined by the time and date the process is with the Sheriff. This can be very important if there are a number of judgment creditors seeking to recover from the same judgment debtor.

After the end of each execution done by the Sheriff, he/she must provide a written report to the office of the Registrar, and Officer in charge.

CIAH: Judicial Development & Training

The objectives of this activity is to plan, execute, monitor, evaluate and report on judicial development and training sessions, programs and initiatives that are within the ambit of the institution as operational plans of the judiciary within the financial year.

CIAI: Case Management

The objective is to ensure the smooth operations of the Information Technology infrastructure, hardware and connectivity so that the Court Management System (CMS) which was recently acquired through the assistance of the “*Stretem Rod Blong Jastis*” project is maintained and enhanced.

Section 1 – Expenditure and Revenue Report

The Budget execution and management

During the financial year, Judiciary had to manage its budget expenses to a standard which need to expand its services to the archipelago especially the outer islands that need to access the services of Justice.

The operation budget of the judiciary did not reflect the reality of all activities such as the annual calendar of events, all judicial officer entitlements, the day to day running of all courts registries around the country and bills.

PAYR	Payroll expenses	-	-	-1,966,369	(1,966,369)
	Personnel Expenses	193,343,839	193,343,839	200,626,967	7,283,128

The budget allocated for payroll total of 200,626,967 Vatu. The Payroll expenses above shows that payroll was under spend with a total of 193,343,839 Vatu. The remaining unspent payroll was 7,283,128 Vatu.

Below are reasons which contribute to the under spend of payroll budget.

1. There are positions that are vacant that still needs to be filled. These positions include Supreme Court Judges, Magistrates and supporting staffs.
2. Gratuities for two vacant Supreme Court Judges.
3. Superannuation for the vacant positions.

The following account shows some important variations.

1. Acting Allowance- the Acting allowance not always includes in the budget for the reason that there is no idea of who will be resigning or on leave that will allow an officer to act on his or her position. Budget expend on this account when the need arises.
2. Responsibility Allowance- In the year 2020, Chief Justice through the Judicial Service Commission appointed some Magistrates to become Supervising Magistrates for different Island Courts of the Republic of Vanuatu. These appointments also involved budget especially with the responsibility allowances which was not budgeted for in 2020 budget. There are also other responsibility allowances that were paid to the Supreme Court Secretaries for job done under Court of Appeal, a separate jurisdiction.
3. Housing Allowance- Judges Housing Allowance was budgeted under operation cost center 1422 CNT. Each year, Virement application was done to vire funds from operation to payroll to cater for Judges Housing Allowance. In the year 2020, there are two vacant positions for Supreme Court Judges which allows the payroll budget under 1422 not expend on permanent wage instead expend on housing allowance. In addition, we have not budgeted for Housing allowance for a senior magistrate who have been transferred back to Port Vila.

No budget also for housing the Tanna Magistrate and her secretary for the reason that they are residing in government houses.

4. Leave Expenses- Two Judges whose leaves were paid in installments on the year 2019 and remaining balance were brought forward to the year 2020 and completely paid out.

Two retired staff whose Leave entitlements were also paid in the year 2020, with the available funds from payroll.

Despite the over spend in some Personal emoluments, the overall payroll expenses was within the Judiciary Annual Budget and managed.

In 2020 Financial year Judiciary make 2 virement applications to vire funds for the following reasons below.

4. Leaves Records

A) Outstanding Leaves Update by Judiciary

At around May 2019, a team of senior management staff within the court administration were delegated to pull out all the court officers' personal files and update leaves taken by an officer. This was done after an audit report in 2019 identify inconsistencies in leave records in the HRMS system with records in individual files and weakness in leave management.

Our management team identifies the following as contribution factors to inconsistencies.

- HRMIS record 15 days leave per annum whereas Judiciary staffs are entitle to 21 days leave per annum.
- Judges are entitle to 42 days leave per annum while HRMIS recorded 21 days leave per annum.
- HRMIS does not captured the long serving staff served over 20 years.
- HRMIS does not include names of every staff
- Record of leave prior to burning down of the court building could not be easily retrieve, leaving the administration to rely on limited records.

With the Leave up-date report provided in 2019 for Judiciary, the newly hired HRO in May & June 2020 perform cross checking of leave files for all current staff & Judicial Officers.

Below is a summary of leave records that was updated and still pending with the FMIS team at Finance Department to OVERRIDE in the HRMIS.
